

Example

BOOTH

- Each exhibitor’s “booth staff” appear on their page for greater personalization and interactivity.
 - Team members that are available to attendees are noted with a green dot next to their names.
- Attendees can also view any polls, a listing of conference attendees and any files the company has provided for viewing.

Your final booth will be experienced and seen by attendees; we encourage a final check to ensure your booth is to your liking before the event goes live.
