

SERVICES PROVIDED BY IHQ

The Fraternity can provide a database of brothers in the nearby vicinity that includes names, alma maters, graduation years, phones, emails and addresses so you have multiple ways to contact them. We suggest graduate chapter leaders request updates often to better identify new brothers to the area, or new contact information which the Headquarters staff has gained. Any address corrections or updates you identify are helpful and should be shared with IHQ.

The Fraternity can assist with bulk mailings and sending electronic newsletters to local brothers, as well as preparing the documents and advising on the best method for mailing. IHQ's Graduate Communication Services provides you with the benefit of low-cost production and discounted postage rates, as well as a robust directory of graduate brothers in your area. Visit the Fraternity website to find more about the services offered and discount packages.

All graduate chapters are listed as named insured on the Fraternity's Liability Insurance coverage. This is a liability insurance only for the protection of its members.

In need of a speaker for your next event? The Fraternity or the Foundation may be able to help find a brother to speak.

Keep the International Headquarters informed as to any changes in leadership of the graduate chapter by emailing or calling with the information. This is vital to the communication process with the Fraternity. The Fraternity sends regular communications to the graduate chapter leadership and their contact information (including email address) should be kept current.
